REQUEST FOR CORRECTED FILING RECEIPT

Dear Sir:

Please note that a portion of the priority information section was omitted on the attached filing receipt. Please correct the error as follows:

In the "Domestic Priority data as claimed by applicant" section, in addition to the priority data currently appearing on the filing receipt, please correct "CON of 09/325,976" to say CIP.

A copy of the formal filing receipt indicating the correction in red ink. is enclosed. Also attached is a copy of the first page of the application which includes the priority information, and a copy of the Application Data Sheet that was filed with the application. Applicant kindly requests that the filing receipt be amended accordingly.

Respectfully submitted,

Alexander J. Smolenski, Jr.

Date Mailed: 10/08/2003

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Foreign Applications

If Required, Foreign Filing License Granted: 10/07/2003

Projected Publication Date: To Be Determined - pending completion of Missing Parts

Non-Publication Request: No

Early Publication Request: No

Title

Motion control of a transporter

Preliminary Class

180

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Motion Control of a Transporter

Cross Reference to Related Applications

This application claims priority from United States Provisional Patent Application
5 Serial No. 60/395,299, filed July 12, 2002, entitled "Control of a Transporter Based on
Disposition of the Center of Gravity."

Additionally, the present application is a continuation-in-part of U.S. Patent
Application Serial No. 09/325,976, filed June 4, 1999, which is, in turn, a continuation-
in-part of U.S. Patent Application Serial No. 08/479,901, filed June 7, 1995, now issued
10 as U.S. Patent no. 5,975,225, itself a continuation-in-part of U.S. Patent Application
Serial No. 08/384,705, filed February 3, 2005, now issued as U.S. Patent no. 5,971,091,
itself a continuation-in-part of U.S. Patent Application Serial No. 08/250,693, filed May
27, 1994, now issued as U.S. Patent no. 5,701,965, itself a continuation-in-part of U.S.
Patent Application Serial No. 08/021,789, filed February 24, 1993 and now abandoned.

15 All of these prior applications are incorporated herein by reference.

Technical Field

The present invention pertains to transporters and methods for transporting a load
which may be an individual, and more particularly to controlling motion of a transporter.

Background Art

20 A wide range of vehicles having a motorized drive arrangement are known for
conveying various subjects, either for purposive locomotion or for recreational purposes.
The means used by an operator to control motion of the motorized drive arrangement of
varies greatly. For example, an operator may manipulate an accelerator pedal to control
forward motion of an automobile, while steering is typically accomplished using a
25 steering wheel. Or the motion of a sporting vehicle may be controlled by rocking a foot
board upon which a user is standing towards the front or rear, so as to mechanically move
a throttle cable, as described in U.S. patent no. 4,790,548 (Francken). Based on the
operator's physical attributes for example, or the transporter's intended functionality,
alternative methods for controlling motion of a transporter may be desirable.
